**Shaping a better
tomorrow**

An aerial photograph of a city, likely Houston, Texas, showing a river (the Houston Ship Channel) winding through the urban landscape. A golf course is visible in the upper left corner. The city's grid street pattern is clearly visible. The image is partially obscured by a white, cloud-like shape that frames the text on the right.

Preface

PT Seven Gates Indonesia offers the most comprehensive range of services in expert dredging, offshore transport, and installation solutions as a one-stop solution for your needs.

Established in 2005, PT Seven Gates Indonesia started as a sea sand concession site located in Banten Province. We engage in the business of acquiring, mining, and producing mineral resources and properties, with the focus on sea sand mining and trading, dredging, and reclamation. Since 2009 PT Seven Gates Indonesia has acquired the majority of reclamation projects in Indonesia, which makes us one of the most trustable companies in the industry.

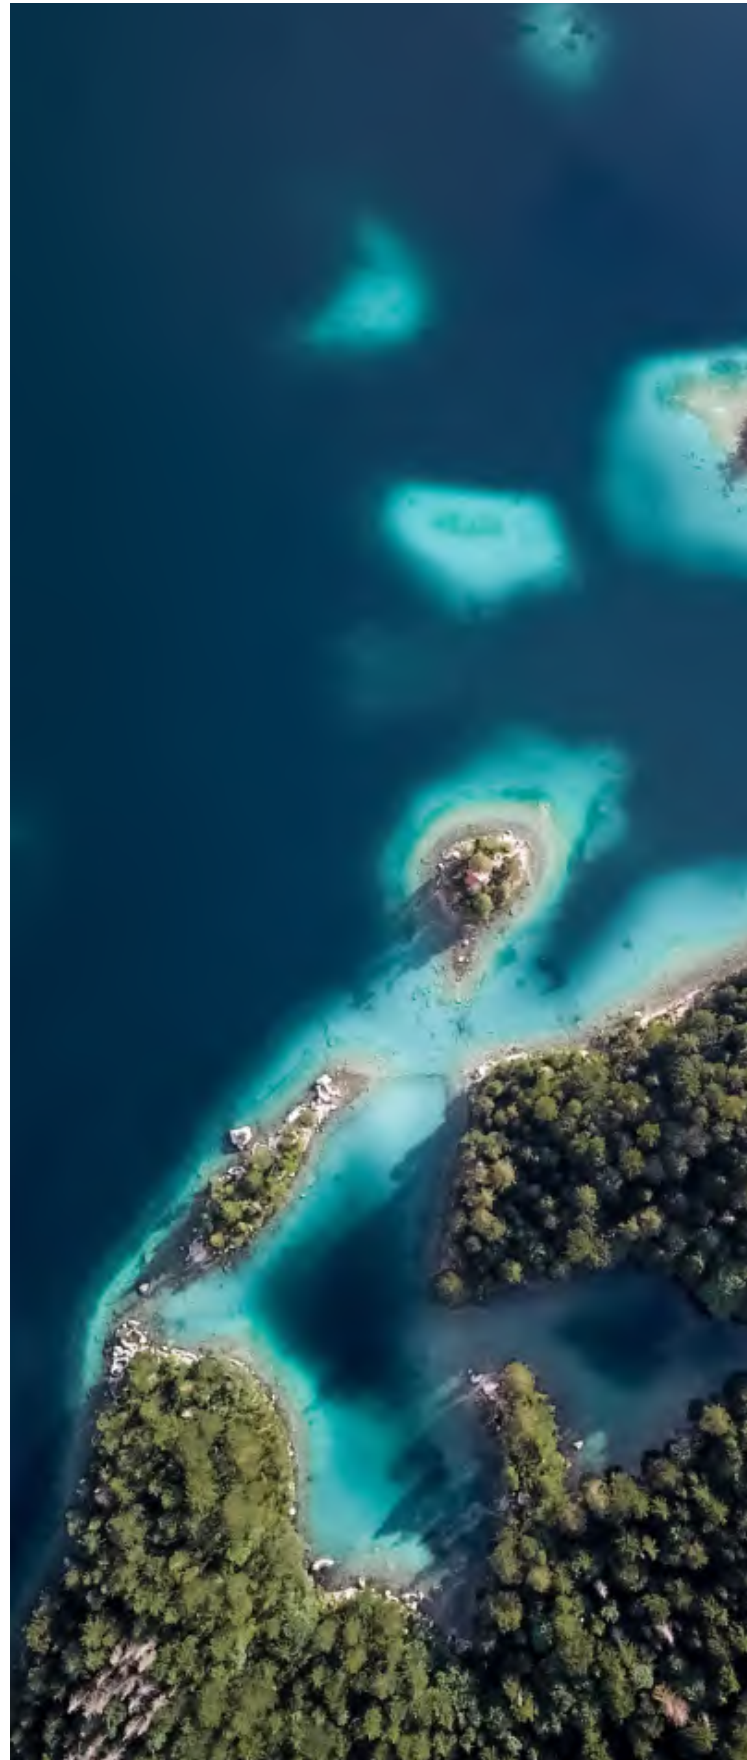

With more than 15 years experience in dredging and reclamation, we provide the best solutions for our clients. Supported with skilled and experienced team in the industry, our committment in the field of dredging create a desire to be one of the best companies in Indonesia. We are not only aiming to meet our client's needs, but also exceeding their expectations.

Vision

To be a responsible, reliable, and leading sand mining and reclamation company in Indonesia.

Mission

We strive for excellence with an effective and efficient method through innovative sand mining practices.

Our Values

We are shaping a better future not only for our clients, but also for the communities, employees, and shareholders. Our vision is to deliver innovation, in steady focus on dredging and land reclamation, sustainably and responsibly.

Words From Our CEO

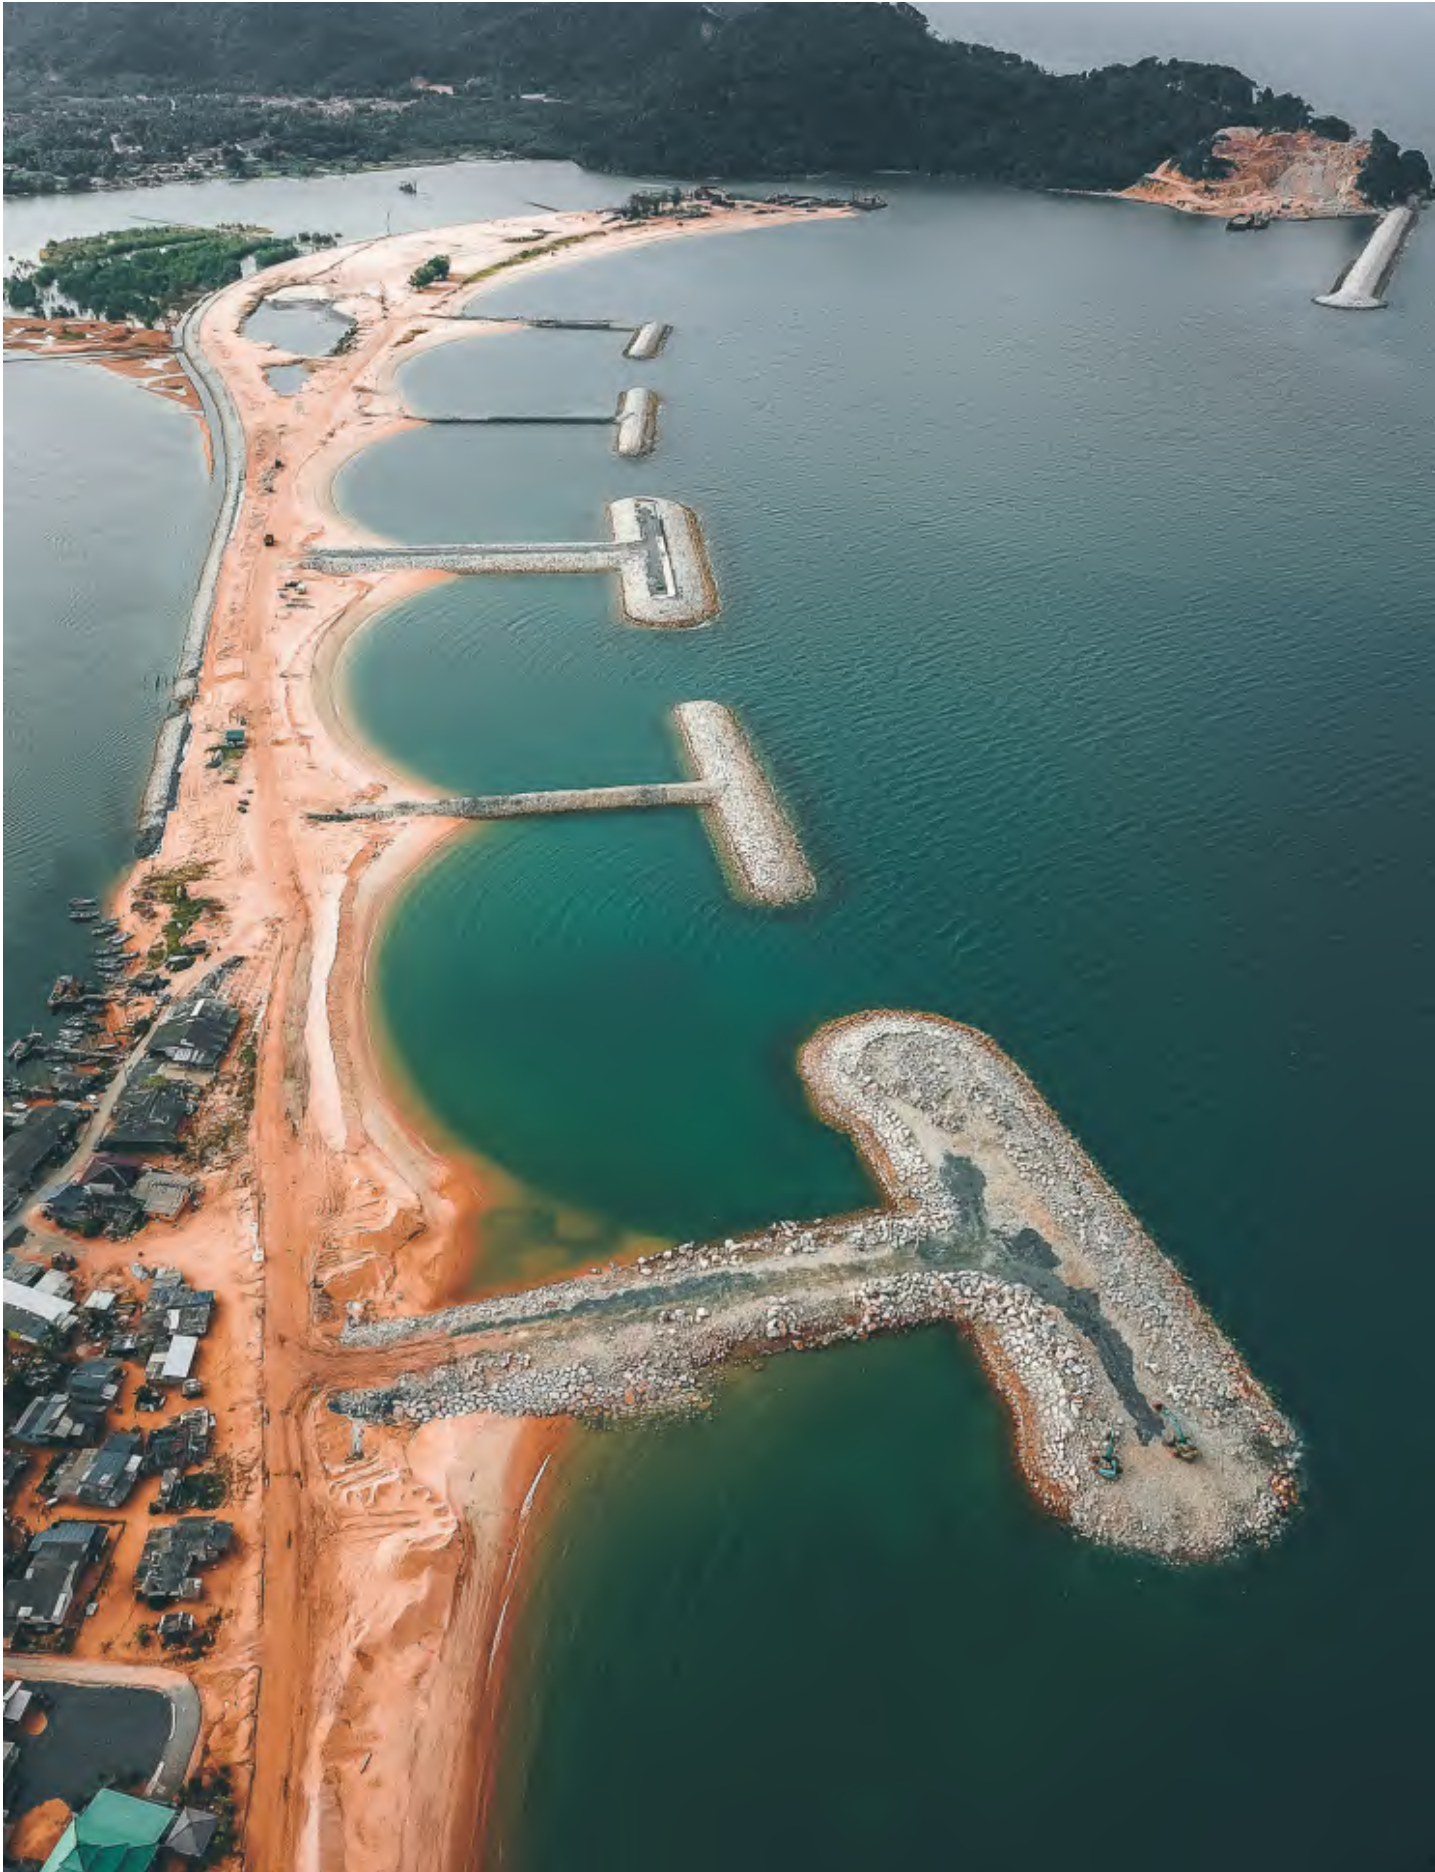

More than 15 years ago, Seven Gates Indonesia was founded with the idea of being the leading company in dredging and reclamation in Indonesia.

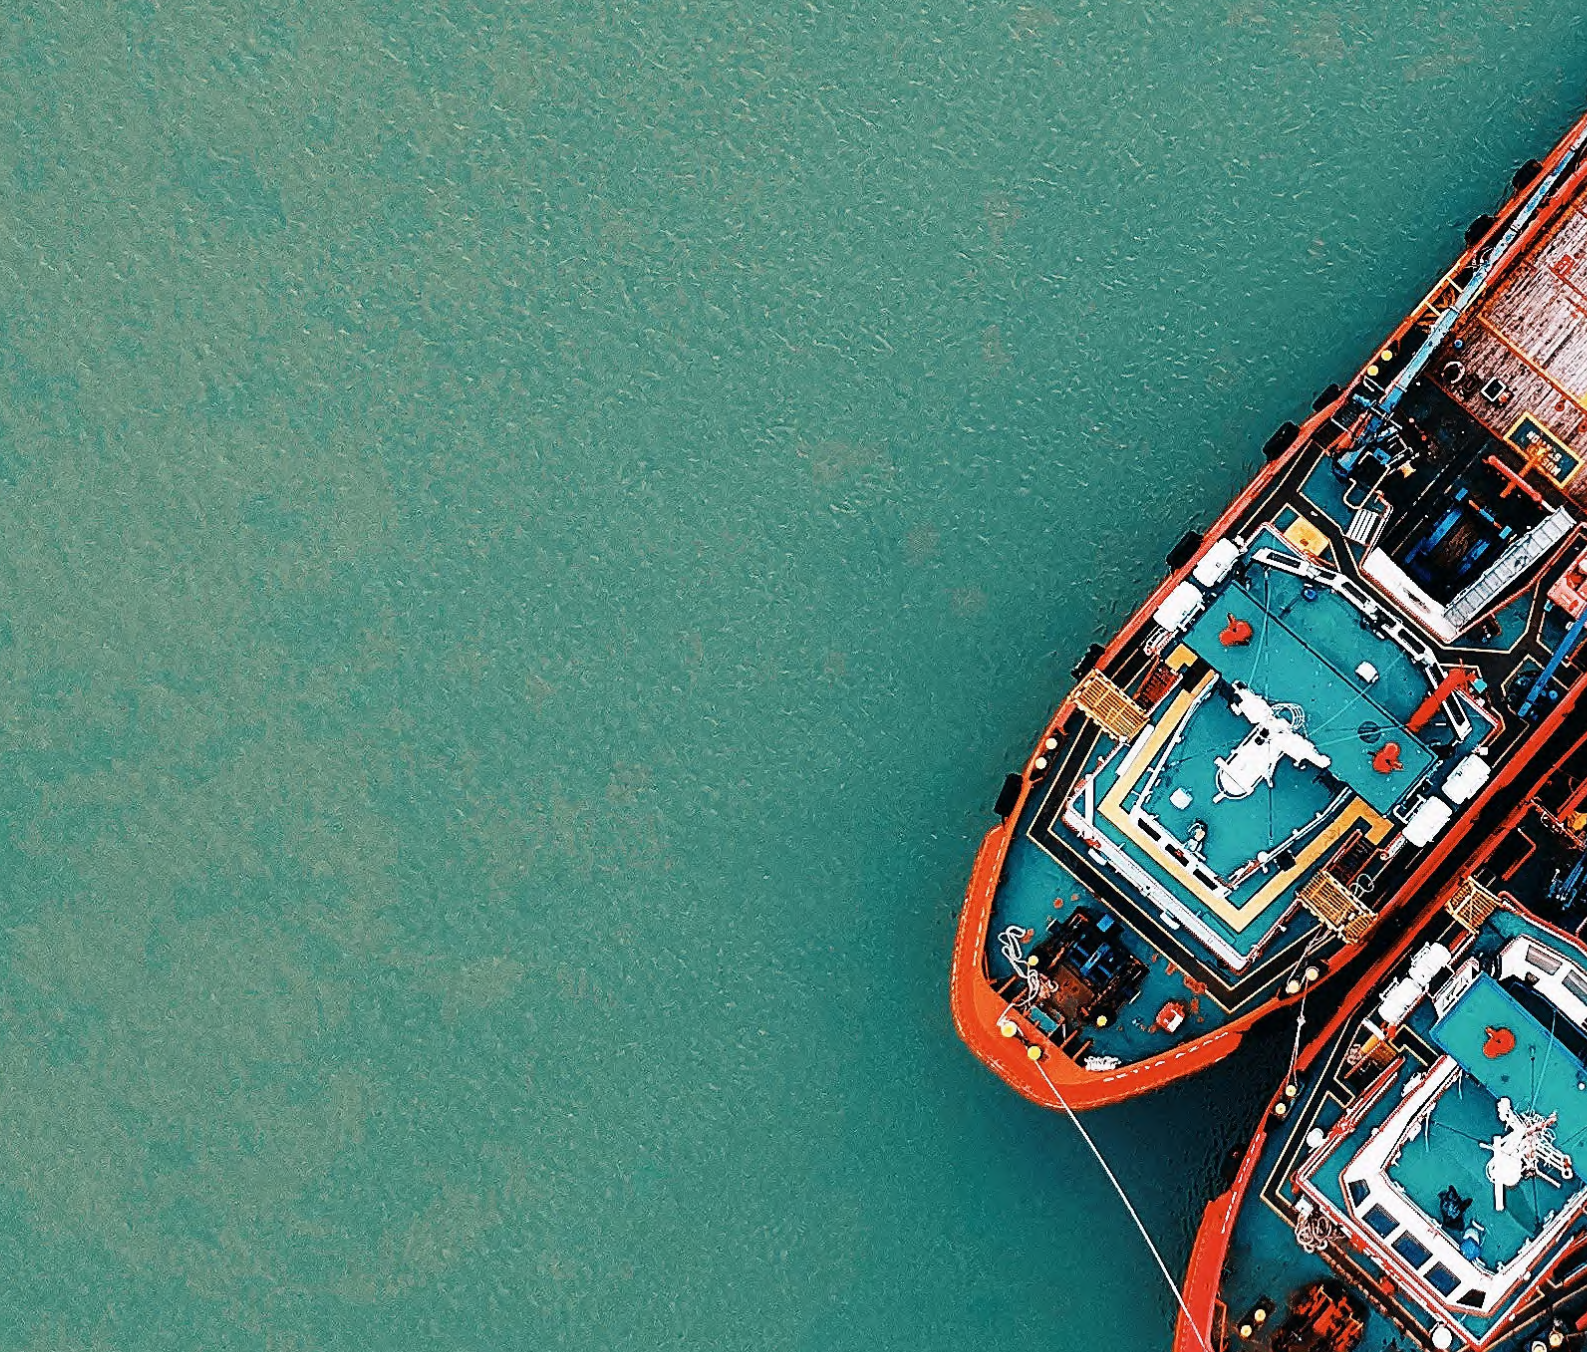

Since we started, we have built up our expertise and network that allow us to secure the majority of reclamation projects in Indonesia. With the trust from our clients and partners, we are able to grow into the leading company in the industry.

We believe that with our desire and experience in the field of dredging and reclamation, will serves our purpose to deliver the best solution and services for our partners.

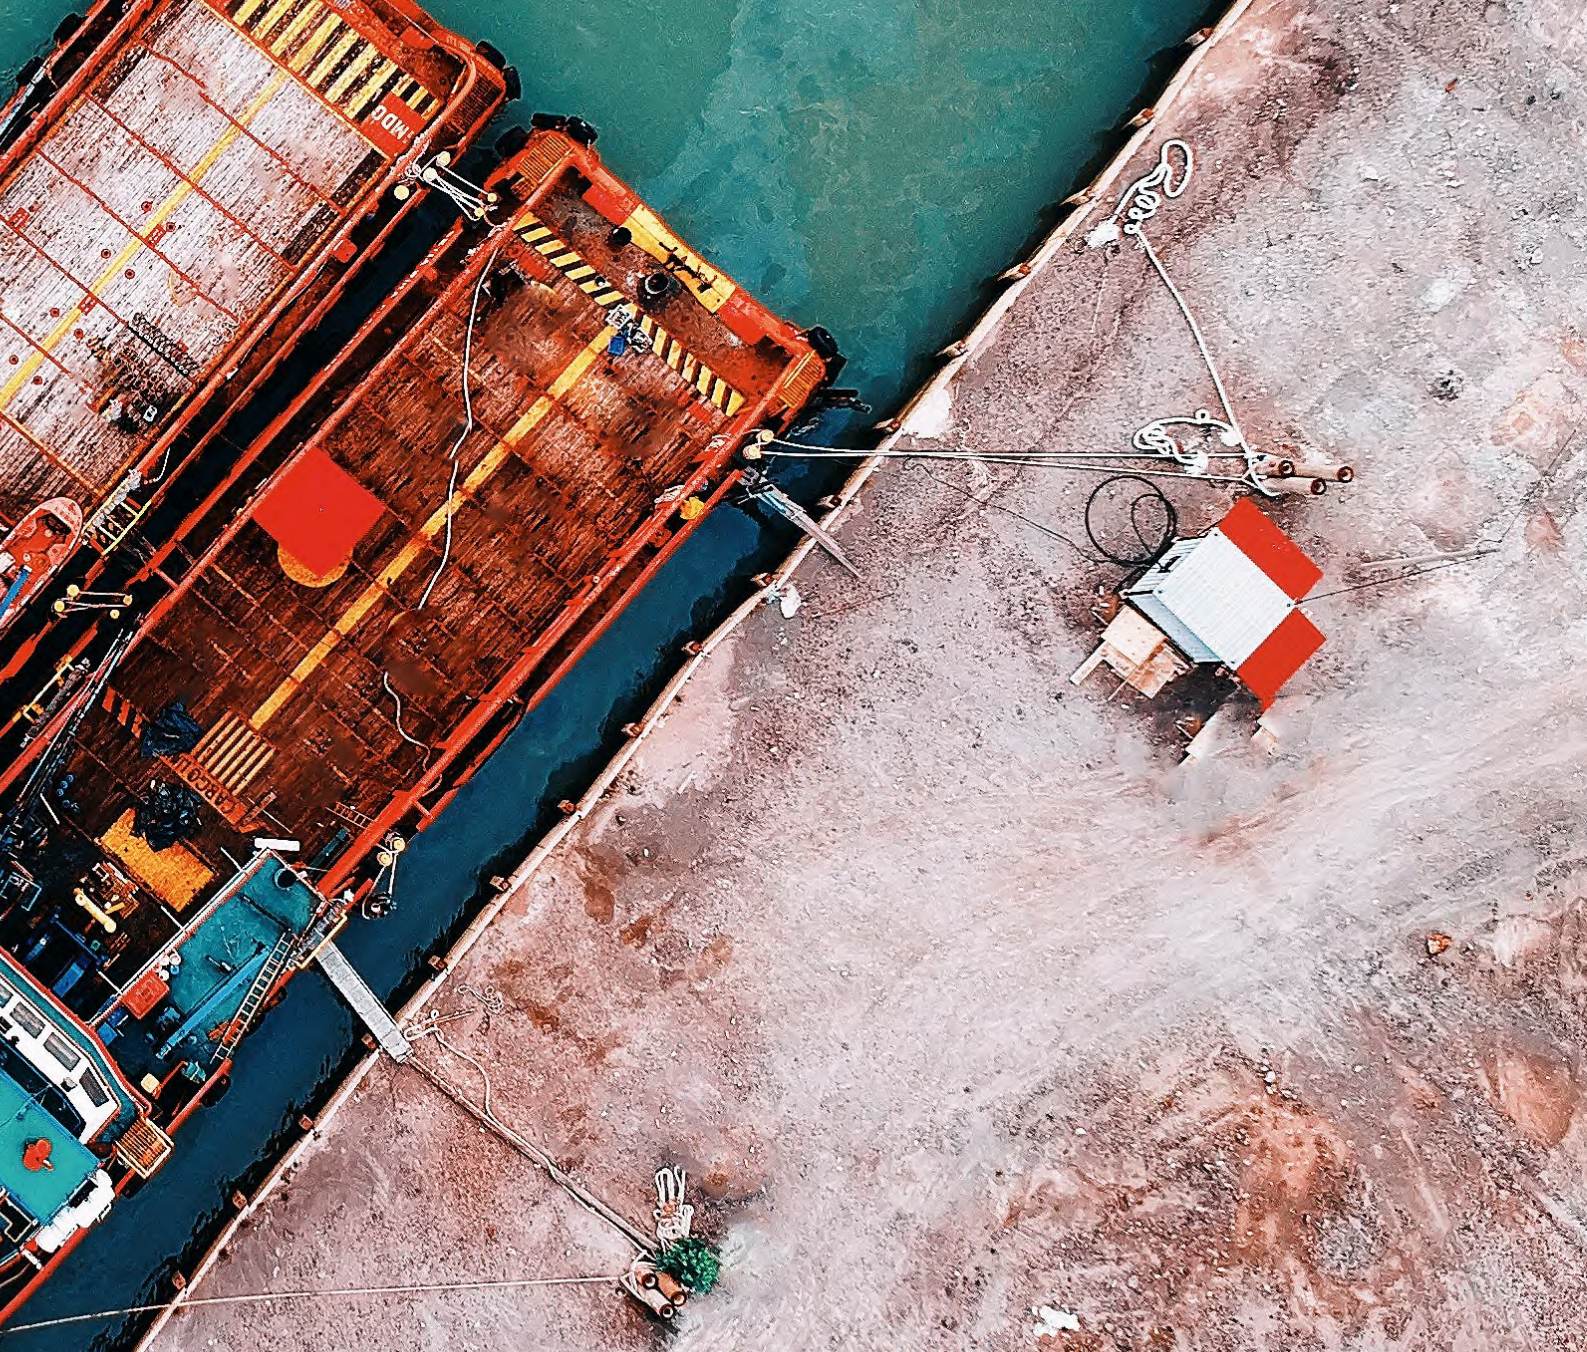

SALIM HAYKAL
CEO Seven Gates Indonesia

Our Services

Specialized in providing the best solution for sea sand and rock mining materials, as well as land reclamation with a high standard of professional conduct.

Dredging & Reclamation

In 2007, Seven Gates Indonesia was established as a sand mining company. We obtained our first mining license under PT Moga Cemerlang Abadi in Banten Province with 22.300 hectares, which is now divided into 13 blocks of sea sand concession.

We expand by creating 10 new sea sand concessions as follows:

1. PT. Cakra Kerta Banten 890 Ha in Pulau Tunda - Banten
2. PT. Mineralindo Berkah Mandiri 900 Ha in Pulau Tunda - Banten
3. PT. Asri Bumi Energi 1000 Ha in Pulau Panjang - Banten
4. PT. Sapta Pilar Energi 990 Ha in Pulau Sangiang - Banten
5. PT. Samudra Artha Mara 980 Ha in Sunda Strait - Banten
6. PT. Segara Banten Samudera 1000 Ha in Sunda Strait - Banten
7. PT. Patih Jaya Banten 900 ha in Sunda Strait - Banten
8. PT. Mineratama Prima Abadi 1000 ha in Makassar

Lotte Chemical Indonesia

Dredging Berthing Jetty Area

PT Seven Gates Indonesia takes pride in its partnership with PT Lotte Chemical Indonesia for the LINE Project WP7. We provided top-notch dredging and disposal services at the Jetty Area, covering an expansive area of approximately 52.9 hectares. With a design depth ranging from -18.00 meters to -15.5 meters, we skillfully dredged a total volume of 1,698,033 cubic meters.

The project, situated in Merak, Banten, involved subcontractor Jan De Nul. It commenced on 19th October 2022 and concluded on 7th November 2022, successfully achieving its objectives.

Lotte Chemical Indonesia

Dredging Sea Water Intake/Outfall Area

PT Seven Gates Indonesia is proud to be working on the Dredging and Dumping Project for PT Lotte Chemical Indonesia. This project involves dredging and dumping at the Sea Water Intake/Outfall Area and Lighters Wharf, covering approximately 4 hectares. The dredging depth varies from -7.00 meters to -18.0 meters, with a total volume of 124,372.61 cubic meters.

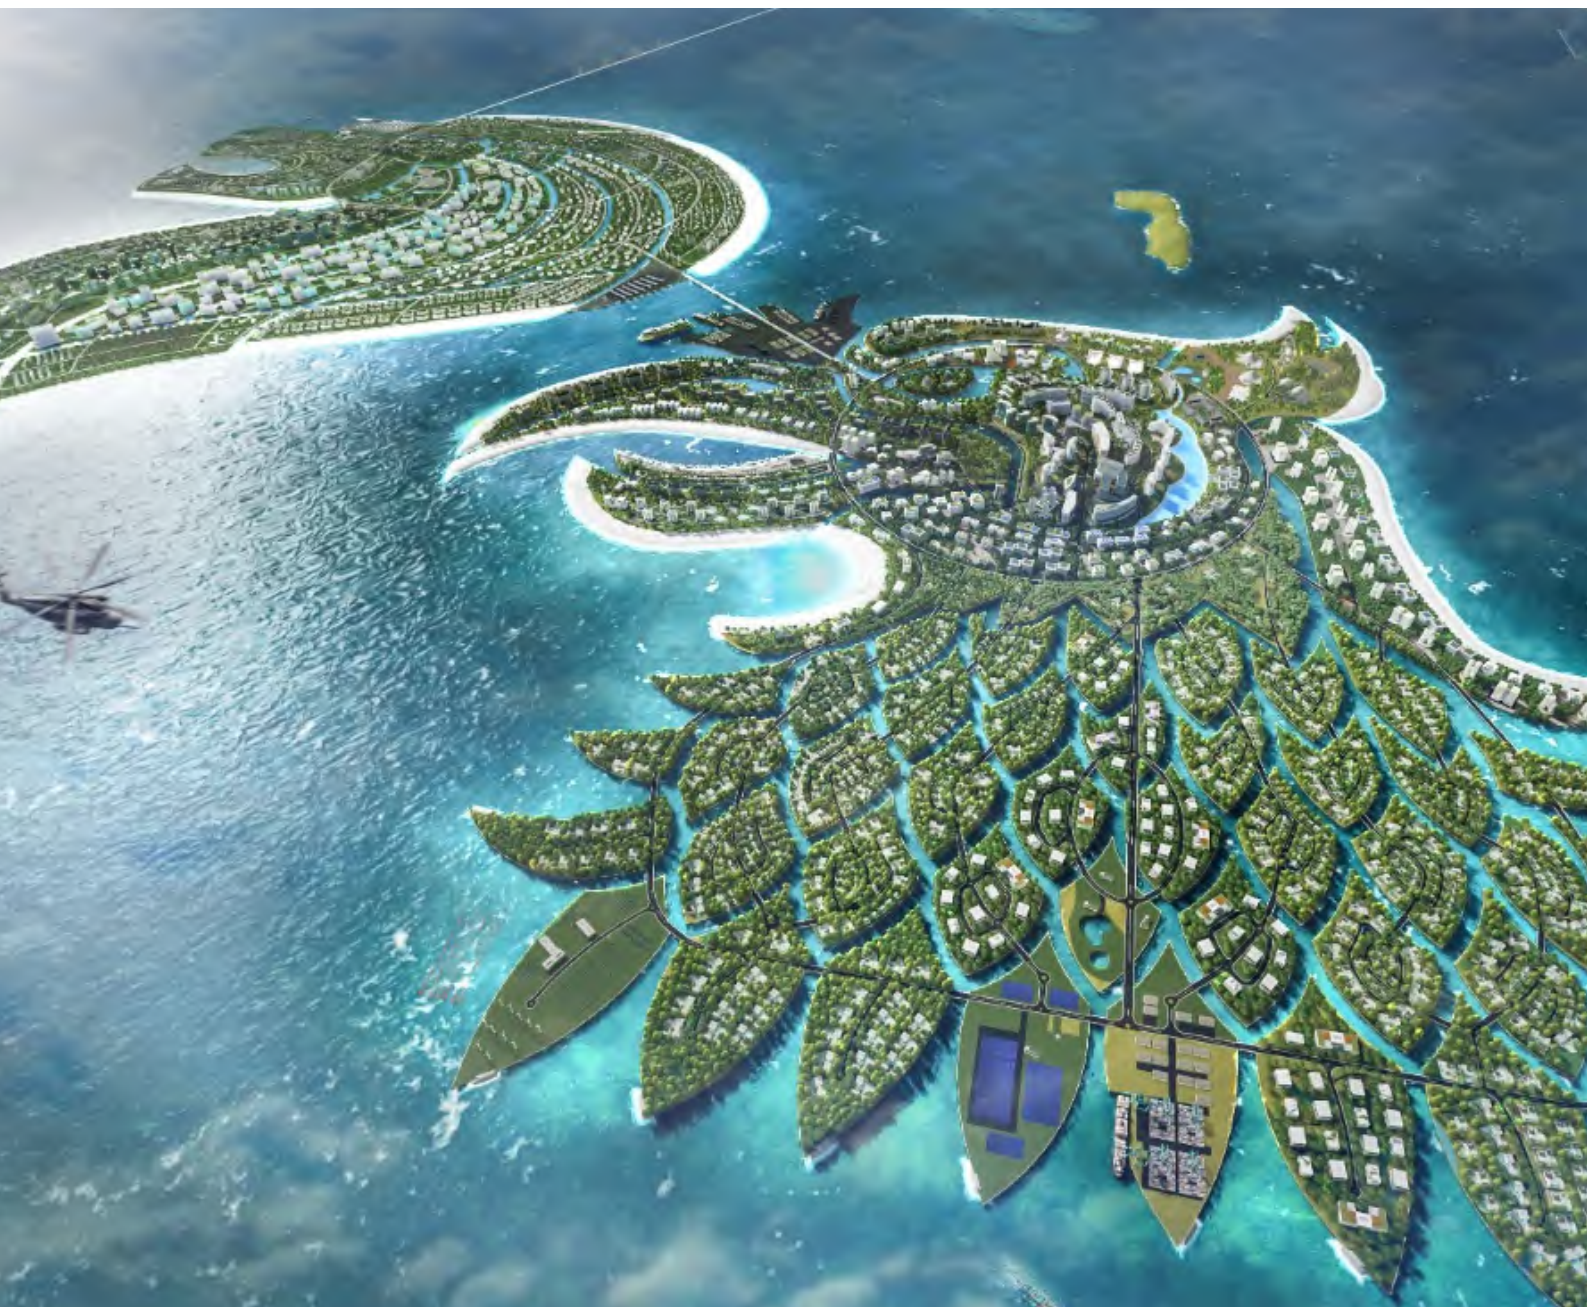

The project is located at Jl. Raya Merak Km. 116, Desa Rawa Arum, Pulomerak, Gerem, Cilegon, Kota Cilegon, Banten 42436. The project commenced on 11th June 2023, and we are diligently working towards its successful completion, expected on 31st October 2023.

Upcoming Projects

Laruda

The Laruda Project is a development for two manmade islands in the territory of Indonesia's outermost islands, directly bordering Singapore.

The reclamation territory of the two islands is approximately 4,611 ha, comprising around 3,648 ha of land ready for construction, 537 ha of canals, rivers and manmade rivers, and 426 ha of roads, MRT/Monorail tracks, and other infrastructure.

These two reclaimed islands will be developed with a vision of becoming the top destination for new investment in Asia, including the development of industrial zones and tourist destinations.

Negeri Seribu Pulau

Together with its subsidiary PT Seribu Pesona Indonesia, PT Seven Gates Indonesia is preparing for the development of in Kepulaun Seribu, Jakarta with a span of 593 hectares area.

Negeri Seribu Pulau has been awarded as National Strategic Project by the government of Indonesia. it is a development of manmade islands to create world class tourism destination in the heart of Indonesia. With the total of 593 hectares and consist of 15 islands, Negeri Seribu Pulau is surrounded by beautiful nature and crystal clear blue ocean that create extraordinary experience.

Ancol

The Ancol project is a development of manmade islands for tourism with the total area of 150 ha. It is an expansion project of the current Ancol tourism destination area in the Jakarta bay.

The project consists of the development of Museum of Prophet Muhammad, Ferry Terminal, Eco Park, Fish Market, Sunset View Hotels, and commercial area.

The Ancol expansion is aimed to be the doorway and supporting area for Negeri Seribu Pulau project.
